### **Contributions to Embryology Volume 12 Books Group**

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 edition. Excerpt: ...The mesoderm of the chorion and amnion clearly show marked degeneration. The embryo itself is normal in shape, but the brain is greatly dissociated; the liver is cloudy and projects into the cord. All of the epidermis is exfoliated, and great masses of degenerate nuclei lie between the embryo and the envelope of magma. (6) Decidua infiltrated; early hydatiform degeneration. No. 97. (1) Gustav Goldman, Baltimore, Maryland. (2) A 33 X30X15 mm.; B 7 mm. (3) Beginning of last menstrual period March 8; abortion May 8. (4) The ovum appeared normal, with the villi distributed equally over it. Upon opening, it was found filled with dense magma reticule, in which could be discerned the faint outline of a 4-weeks' embryo. The embryo, amnion, and umbilical vesicle are all normal in form. (5) The amnion is filled with cells; the umbilical vesicle is filled with migrating cells, but its blood-islands and entoderm appear fairly normal. The chorion is fibrous, rarefied, and macerated. The outer covering of the vesicle is composed of a short layer of columnar epithelial cells. The magma of the ccelom is filled with wandering cells. On one side of the embryo the epidermis is missing. The nervous system is greatly dilated and dissociated, and the liver tissue obscured and filled with migrating cells. The contour of the abdominal viscera is obliterated, and they, likewise, are filled with migrating cells. Pharynx, heart, large veins, and aorta are greatly dilated. (6) Decidua absent. Some hydatiform degeneration. No. 124. (1) H. F. Cassidy, Baltimore, Maryland. (2) A 90 X 75 X50 mm.; B-35 mm. (4) The ovum was received fresh and unopened. It appears as a transparent cyst with a crescent-shaped placenta on one end, measuring 60X50 mm. Within it was a second...
