*Map Use: Reading, Analysis, Interpretation*, eighth edition, is a comprehensive, foundational textbook designed for the college curriculum. Updated with a new chapter highlighting web map design, the new edition also adds information about the use of imagery and remote sensing. *Map Use* provides students with the knowledge and skills to read and understand maps and offers professional cartographers a thorough reference resource.

Nearly 600 full-color maps, photographs, and graphs illustrate the concepts behind communicating with maps, while an extensive glossary helps define key topics.

Accommodating new developments in GPS and geographic information system (GIS) technology, this newest edition renders basic cartographic principles accessible to all, from students of cartography and map design to those without a formal education in geography.
