*Hermann Haken*

**Information and Self-Organization: A Macroscopic Approach to Complex Systems** Hermann Haken  
This book presents the concepts needed to deal with self-organizing complex systems from a unifying point of view that uses macroscopic data. The meanings of "information" are discussed. A general formulation of the maximum information (entropy) principle is used. With aid of synergetics adequate objective constraints for a large class of systems are formulated and examples are given from physics and biology.
