Now you don't have to because over 3,500 questions are already written down for you in Q&A in Pathology.

Multiple Choice

Multiple Choice mode provides up to 5 different choices per question. Explanations are provided for incorrect answers. While taking the multiple choice quizzes, your score is displayed at the top of the screen, so you can always see how you are doing.

Uncued

Uncued mode provides the same answers (1,000's of them) per question. You must know the answer to get these questions right... no guessing!! As with the multiple choice mode, your score is tallied as you go. Two comprehensive exams are also available in the uncued mode.
