In Detail

Microsoft Dynamics NAV is a multi-lingual, multi-currency business management solution that organizations use to manage their accounts, supply chain, sales, payroll, and HR. It is an ERP tool for organizations that is fast to implement, easy to configure, and simple to use. It is widely used because simplicity is a part of its development, product design, usability, and implementation.

This book will help you to master, analyze, and deliver the most challenging reporting requirements in Dynamics NAV 2015.

The book starts by explaining report development and its different phases such as data model, layout, and testing you go through. It introduces you to RDLC and the different controls in the toolbox, such as the

Tablix, in its many forms. You will learn to use expressions to make your layout dynamic and to overcome typical problems.

Moving on, the book will teach you to visualize data and be able to understand and read a report as it is intended. You will also learn to use Microsoft Word to create a layout for a report. With Power BI and Power Pivot, Power View, and Power Map, you will learn how easy and powerful it is to bring your data to life, so you can spot trends and perform in depth analysis of your business. Reporting Services is also explained as another way that you can apply the knowledge you have about RDLC to build RDL layouts outside of Dynamics NAV.

By the end, you will create different types of charts so you can visualize key performance indicators inside the Dynamics NAV application.

Style and approach

This book is an essential guide in to understanding what is involved in creating reports in Dynamics NAV and its reporting capabilities.
