Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series)

Shing-Tung Yau (Harvard University)

Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) Shing-Tung Yau (Harvard University)

Comprising volumes 28 and 29 of the ALM series, this outstanding collection presents all the survey papers of Shing-Tung Yau published to date (through 2013), each with Yau's own commentary. Among these are several papers not otherwise easily accessible. Also presented are several commentaries on Yau's work written by outstanding scholars from around the world especially for publication here.

Shing-Tung Yau's work is mainly in differential geometry, and he is one of the originators of the broad subject of geometric analysis - in which he remains one of the most active participants. His contributions have had an influence on both physics and mathematics, and he has long been active at the interface between geometry and theoretical physics. His proof of the positive energy theorem in general relativity demonstrated - sixty years after its discovery - that Einstein's theory is consistent and stable. His proof of the Calabi conjecture allowed physicists - using Calabi-Yau compactification - to show that string theory is a viable candidate for a unified theory of nature. Calabi-Yau manifolds are part of the standard toolkit of string theorists today. He was awarded the Fields Medal in 1982 and the Wolf Prize in 2010, and has received many other honors.

The *Selected Expository Works of Shing-Tung Yau with Commentary* provides the reader with systematic commentary on all aspects of mathematics by a contemporary master. The reader can thereby see the world of mathematics through his particular perspective, and gain understanding of the motivation and evolution of mathematical ideas.

This is the second of two volumes constituting the *Selected Expository Works of Shing-Tung Yau with Commentary*.

From reader reviews:

Myra Lopez:

What do you consider book? It is just for students as they are still students or it for all people in the world, what best subject for that? Simply you can be answered for that question above. Every person has various personality and hobby for every other. Don't to be compelled someone or something that they don't want do that. You must know how great along with important the book Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series). All type of book can you see on many solutions. You can look for the internet options or other social media.

Allan Nguyen:

What do you about book? It is not important along? Or just adding material when you require something to explain what the ones you have problem? How about your extra time? Or are you busy person? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every person has many questions above. They have to answer that question due to the fact just their can do that. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on kindergarten until university need this Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) to read.

Oliver Watts:

Now a day individuals who Living in the era everywhere everything reachable by connect to the internet and the resources in it can be true or not require people to be aware of each info they get. How a lot more to be smart in getting any information nowadays? Of course the answer is reading a book. Looking at a book can help men and women out of this uncertainty Information particularly this Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) book because this book offers you rich info and knowledge. Of course the details in this book hundred % guarantees there is no doubt in it as you know.

Leslie James:

Reading a e-book make you to get more knowledge as a result. You can take knowledge and information from the book. Book is published or printed or highlighted from each source in which filled update of news. In this modern era like today, many ways to get information are available for you. From media social like newspaper, magazines, science publication, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Isn't it time to spend your spare time to open your book? Or just looking for the Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) when you desired it?
