Laboratory Manual to accompany Inquiry Into Life Sylvia S. Mader, Sylvia Mader

The laboratory exercises in this manual are coordinated with *Inquiry into Life*. The text emphasizes how we can apply biological knowledge to our own lives and to our relationships with other organisms.

Although each laboratory is referenced to the appropriate chapter in *Inquiry into Life*, this manual may be used in coordination with other general biology texts. This manual can be adapted to a variety of course orientations and designs. There are a sufficient number of laboratories to permit a choice of activities over the length of the course. Many activities may be performed as demonstrations rather than as student activities, thereby shortening the time required to cover a particular concept.
