New Money for a New World Bernard Lietaer, Stephen Belgin

Real Change is Truly Possible, Right Now... We can end the threats to our environment, and aid dramatically in its restoration. We can help provide meaningful work for all, with opportunities that enhance and replenish the world around us. We can effectively address fundamental urban and rural concerns and the many diverse and often divergent needs of developing and developed nations alike. We can create a better world where life and all living systems flourish. This is not an idealistic dream, but is rather a pragmatic attainment, achievable within our very own lifetime. So write Bernard Lietaer and Stephen Belgin, authors of the much anticipated book *New Money for a New World*. Mr. Lietaer is a principal architect of the euro and author of the acclaimed international best seller *The Future of Money*, which has been translated into sixteen languages. Mr. Belgin is the founder and president of Qiterra Press and author of the upcoming *City of Light Chronicles*. *New Money for a New World* examines a previously unexamined culprit for the many issues we face today-the monopoly of our centuries old monetary system. This book also provides many ways and means that are now readily available to stop the current juggernaut towards global self destruction. Many of the solutions offered within this book are more than theory. Communities from around the world have successfully addressed a myriad of issues without the need to raise taxes, redistribute wealth, or depend upon enlightened self interest from corporate entities. Rather the improvements were realized simply and effectively by rethinking money. With such a shift everything is possible.
