Office Hours with a Geometric Group Theorist

Office Hours with a Geometric Group Theorist

Geometric group theory is the study of the interplay between groups and the spaces they act on, and has its roots in the works of Henri Poincaré, Felix Klein, J.H.C. Whitehead, and Max Dehn. *Office Hours with a Geometric Group Theorist* brings together leading experts who provide one-on-one instruction on key topics in this exciting and relatively new field of mathematics. It's like having office hours with your most trusted math professors.

An essential primer for undergraduates making the leap to graduate work, the book begins with free groups--actions of free groups on trees, algorithmic questions about free groups, the ping-pong lemma, and automorphisms of free groups. It goes on to cover several large-scale geometric invariants of groups, including quasi-isometry groups, Dehn functions, Gromov hyperbolicity, and asymptotic dimension. It also delves into important examples of groups, such as Coxeter groups, Thompson's groups, right-angled Artin groups, lamplighter groups, mapping class groups, and braid groups. The tone is conversational throughout, and the instruction is driven by examples.

Accessible to students who have taken a first course in abstract algebra, *Office Hours with a Geometric Group Theorist* also features numerous exercises and in-depth projects designed to engage readers and provide jumping-off points for research projects.

From reader reviews:

Helen Albertson:

The book Office Hours with a Geometric Group Theorist make you feel enjoy for your spare time. You can use to make your capable a lot more increase. Book can for being your best friend when you getting pressure or having big problem with your subject. If you can make studying a book Office Hours with a Geometric Group Theorist to get your habit, you can get a lot more advantages, like add your capable, increase your knowledge about a number of or all subjects. You may know everything if you like open and read a e-book Office Hours with a Geometric Group Theorist. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this publication?

Joseph Yancey:

Playing with family within a park, coming to see the marine world or hanging out with friends is thing that usually you might have done when you have spare time, in that case why you don't try matter that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Office Hours with a Geometric Group Theorist, you are able to enjoy both. It is very good combination right, you still need to miss it? What kind of hang type is it? Oh come on its mind hangout fellas. What? Still don't get it, oh come on its known as reading friends.

Sherry Holsey:

You may spend your free time to read this book this reserve. This Office Hours with a Geometric Group Theorist is simple bringing you can read it in the playground, in the beach, train and also soon. If you did not get much space to bring the actual printed book, you can buy the e-book. It is make you much easier to read it. You can save the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.

Kyra Franson:

Some individuals said that they feel weary when they reading a guide. They are directly felt the idea when they get a half areas of the book. You can choose often the book Office Hours with a Geometric Group Theorist to make your reading is interesting. Your current skill of reading proficiency is developing when you including reading. Try to choose basic book to make you enjoy you just read it and mingle the idea about book and reading especially. It is to be 1st opinion for you to like to wide open a book and study it. Beside that the e-book Office Hours with a Geometric Group Theorist can to be your friend when you're really feel alone and confuse in what must you're doing of this time.
