Study Guide to Clinical Psychopharmacology is a question-and-answer companion that allows you to evaluate your mastery of the subject matter as you progress through the corresponding textbook. The *Study Guide* is made up of 368 questions divided into 65 individual quizzes of 5-10 questions each that correspond to chapters in *The American Psychiatric Publishing Textbook of Psychopharmacology*, Third Edition. Questions are followed by an Answer Guide that references relevant text (including the page number) in the *Textbook* to allow quick access to needed information. Each answer is accompanied by a discussion that not only addresses the correct response but also explains why other responses are not correct.

The *Study Guide's* companion, the third edition of *The American Psychiatric Publishing Textbook of Psychopharmacology*, covers four major sections: Principles of Psychopharmacology, which provides the necessary background in neurobiology and pharmacology; Classes of Psychiatric Treatment, which presents information by classes of drugs; Clinical Psychobiology and Psychiatric Syndromes, which reviews the data on the biological underpinnings of specific disorders for a better understanding of current psychopharmacological approaches; and Psychopharmacological Treatment, which provides specific information about drug selection and their prescription.
