# Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)

## Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)

Speech recognition in ‘adverse conditions’ has been a familiar area of research in computer science, engineering, and hearing sciences for several decades. In contrast, most psycholinguistic theories of speech recognition are built upon evidence gathered from tasks performed by healthy listeners on carefully recorded speech, in a quiet environment, and under conditions of undivided attention.

Building upon the momentum initiated by the Psycholinguistic Approaches to Speech Recognition in Adverse Conditions workshop held in Bristol, UK, in 2010, the aim of this volume is to promote a multi-disciplinary, yet unified approach to the perceptual, cognitive, and neuro-physiological mechanisms underpinning the recognition of degraded speech, variable speech, speech experienced under cognitive load, and speech experienced by theoretically relevant populations.

This collection opens with a review of the literature and a formal classification of adverse conditions. The research articles then highlight those adverse conditions with the greatest potential for constraining theory, showing that some speech phenomena often believed to be immutable can be affected by noise, surface variations, or attentional set in ways that will force researchers to rethink their theory. This volume is essential for those interested in speech recognition outside laboratory constraints.

### **From reader reviews:**

#### **Arnold Grigg:**

The book *Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)* give you a sense of feeling enjoy for your spare time. You can use to make your capable considerably more increase. Book can being your best friend when you getting strain or having big problem with the subject. If you can make examining a book *Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)* for being your habit, you can get far more advantages, like add your own personal capable, increase your knowledge about several or all subjects. It is possible to know everything if you like open up and read a e-book *Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)*. Kinds of book are a lot of. It means that, science guide or encyclopedia or other individuals. So , how do you think about this reserve?

#### **Serafina Hayes:**

In this 21st millennium, people become competitive in every way. By being competitive currently, people have do something to make these survives, being in the middle of typically the crowded place and notice by simply surrounding. One thing that at times many people have underestimated the idea for a while is reading. Yep, by reading a reserve your ability to survive improve then having chance to remain than other is high. For you who want to start reading any book, we give you this kind of *Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)* book as basic and daily reading publication. Why, because this book is greater than just a book.

#### **Donna Bledsoe:**

Is it an individual who having spare time and then spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This *Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes)* can be the reply, oh how comes? The new book you know. You are so out of date, spending your free time by reading in this completely new era is common not a nerd activity. So what these ebooks have than the others?

#### **Dina Hirsch:**

What is your hobby? Have you heard in which question when you got college students? We believe that that problem was given by teacher with their students. Many kinds of hobby, Every person has different hobby. And also you know that little person including reading or as reading become their hobby. You need to know that reading is very important and book as to be the issue. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You find good news or update with regards to something by book. A substantial number of sorts of books that can you choose to adopt be your object. One of them are

these claims Speech Recognition in Adverse Conditions: Explorations in Behaviour and Neuroscience (Special Issues of Language and Cognitive Processes).
