StatCrunch is online statistical software that allows users to perform complex analyses, share data sets, and generate compelling reports of their data. Developed by Webster West of Texas A&M University, StatCrunch.com already has more than 13,000 data sets available for students to analyze, covering almost any topic of interest. Interactive graphics help users understand statistical concepts and are available for export to enrich reports with visual representations of data. The StatCrunch statistics software is also integrated into MyStatLab, enabling students to analyze and interpret data sets from the textbook.
