## **Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) Kamakhya Prasad Ghatak**

The importance of the effective mass (EM) is already well known since the inception of solid-state physics and this first-of-its-kind monograph solely deals with the quantum effects in EM of heavily doped (HD) nanostructures. The materials considered are HD quantum confined nonlinear optical, III-V, II-VI, IV-VI, GaP, Ge, PtSb<sub>2</sub>, stressed materials, GaSb, Te, II-V, Bi<sub>2</sub>Te<sub>3</sub>, lead germanium telluride, zinc and cadmium diphosphides, and quantum confined III-V, II-VI, IV-VI, and HgTe/CdTe super-lattices with graded interfaces and effective mass super-lattices. The presence of intense light waves in optoelectronics and strong electric field in nano-devices change the band structure of semiconductors in fundamental ways, which have also been incorporated in the study of EM in HD quantized structures of optoelectronic compounds that control the studies of the HD quantum effect devices under strong fields. The importance of measurement of band gap in optoelectronic materials under intense external fields has also been discussed in this context. The influences of magnetic quantization, crossed electric and quantizing fields, electric field and light waves on the EM in HD semiconductors and super-lattices are discussed.

The content of this book finds twenty-eight different applications in the arena of nano-science and nano-technology. This book contains 200 open research problems which form the integral part of the text and are useful for both PhD aspirants and researchers in the fields of condensed matter physics, materials science, solid state sciences, nano-science and technology and allied fields in addition to the graduate courses in semiconductor nanostructures. The book is written for post-graduate students, researchers, engineers and professionals in the fields of condensed matter physics, solid state sciences, materials science, nanoscience and technology and nanostructured materials in general.

### **From reader reviews:**

#### **Nathan Marker:**

This book untitled Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) to be one of several books that will best seller in this year, honestly, that is because when you read this reserve you can get a lot of benefit in it. You will easily to buy this book in the book retail store or you can order it through online. The publisher on this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Smart phone. So there is no reason for you to past this e-book from your list.

#### **Jerry Carley:**

Do you have something that you want such as book? The e-book lovers usually prefer to choose book like comic, short story and the biggest one is novel. Now, why not striving Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) that give your satisfaction preference will be satisfied by reading this book. Reading habit all over the world can be said as the opportunity for people to know world considerably better then how they react when it comes to the world. It can't be mentioned constantly that reading addiction only for the geeky particular person but for all of you who wants to become success person. So , for all of you who want to start reading through as your good habit, you may pick Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) become your own starter.

#### **Lurline Silvester:**

Reading a book for being new life style in this year; every people loves to read a book. When you learn a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your examine, you can read education books, but if you want to entertain yourself look for a fiction books, this kind of us novel, comics, along with soon. The Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) provide you with new experience in looking at a book.

#### **Lou Whisenhunt:**

You can find this Quantum Effects, Heavy Doping, and the Effective Mass (Series on the Foundations of Natural Science and Technology) by browse the bookstore or Mall. Simply viewing or reviewing it could to be your solve trouble if you get difficulties for the knowledge. Kinds of this e-book are various. Not only through written or printed but in addition can you enjoy this book by e-book. In the modern era just like now, you just looking from your mobile phone and searching what their problem. Right now, choose your own ways to get more information about your book. It is most important to arrange you to ultimately make your knowledge are still revise. Let's try to choose proper ways for you.
