Machine Learning and Medical Imaging (Elsevier and Micca Society)

Machine Learning and Medical Imaging (Elsevier and Micca Society)

Machine Learning and Medical Imaging (Elsevier and Micca Society)

Machine Learning and Medical Imaging presents state-of- the-art machine learning methods in medical image analysis. It first summarizes cutting-edge machine learning algorithms in medical imaging, including not only classical probabilistic modeling and learning methods, but also recent breakthroughs in deep learning, sparse representation/coding, and big data hashing. In the second part leading research groups around the world present a wide spectrum of machine learning methods with application to different medical imaging modalities, clinical domains, and organs.

The biomedical imaging modalities include ultrasound, magnetic resonance imaging (MRI), computed tomography (CT), histology, and microscopy images. The targeted organs span the lung, liver, brain, and prostate, while there is also a treatment of examining genetic associations. *Machine Learning and Medical Imaging* is an ideal reference for medical imaging researchers, industry scientists and engineers, advanced undergraduate and graduate students, and clinicians.

- Demonstrates the application of cutting-edge machine learning techniques to medical imaging problems
- Covers an array of medical imaging applications including computer assisted diagnosis, image guided radiation therapy, landmark detection, imaging genomics, and brain connectomics
- Features self-contained chapters with a thorough literature review
- Assesses the development of future machine learning techniques and the further application of existing techniques

From reader reviews:

Wendy Brame:

The book Machine Learning and Medical Imaging (Elsevier and Micca Society) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research before write this book. That book very easy to read you will get the point easily after scanning this book.

Sarah Ruff:

On this era which is the greater particular person or who has ability in doing something more are more special than other. Do you want to become among it? It is just simple approach to have that. What you should do is just spending your time not very much but quite enough to get a look at some books. One of the books in the top list in your reading list is definitely Machine Learning and Medical Imaging (Elsevier and Micca Society). This book that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking right up and review this book you can get many advantages.

Frankie Evans:

A lot of publication has printed but it is unique. You can get it by online on social media. You can choose the very best book for you, science, comic, novel, or whatever by means of searching from it. It is referred to as of book Machine Learning and Medical Imaging (Elsevier and Micca Society). You can include your knowledge by it. Without leaving the printed book, it may add your knowledge and make anyone happier to read. It is most significant that, you must aware about reserve. It can bring you from one destination to other place.

Lily Terry:

Publication is one of source of expertise. We can add our knowledge from it. Not only for students but in addition native or citizen want book to know the revise information of year to year. As we know those books have many advantages. Beside we all add our knowledge, can bring us to around the world. From the book Machine Learning and Medical Imaging (Elsevier and Micca Society) we can consider more advantage. Don't you to be creative people? To become creative person must want to read a book. Merely choose the best book that ideal with your aim. Don't end up being doubt to change your life with that book Machine Learning and Medical Imaging (Elsevier and Micca Society). You can more inviting than now.
