NOTE: Before purchasing, check with your instructor to ensure you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a **Course ID**, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

For courses in Two-Semester A&P

This package includes MasteringA&P™.

Using Art Effectively with the Most Visual Approach to A&P

Visual Anatomy & Physiology combines a one-of-a-kind visual approach with a modular organization that uniquely meets the needs of today's students—without sacrificing the comprehensive coverage of A&P topics required for careers in nursing and other allied health professions.

The **3rd Edition** presents key new features based on recent research about how information is used and digested. **New modules in the first chapter** emphasize how to use art effectively when studying; new **Integrated Figure Questions** increases the likelihood you will spend time viewing the art and prompts you to consider what you have just learned; and new **SmartArt Videos**, accessible via QR code in the book, help in navigating key, complex pieces of art on some of the toughest topics.

New Interactive Physiology 2.0 tutorials, SmartArt Video Activities, and a mobile-friendly eText expand the options for students to use MasteringA&P as an effective practice and learning tool.

Personalize learning with MasteringA&P™.

MasteringA&P is an online homework, tutorial, and assessment program designed to engage students and improve results. Instructors ensure that students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through assignments that provide hints and answer-specific feedback. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.
