Introduction to Cataloging and Classification

Mildred Harlow Downing

Introduction to Cataloging and Classification Mildred Harlow Downing

Revised, updated, and almost completely rewritten, this sixth edition of a classic textbook teaches all aspects of cataloging and classification, stressing practical library applications as well as theory. Incorporated are changes from the 1988 revision of the *Anglo-American Cataloguing Rules, 2d ed.* (AACR2) and the 20th edition of the Dewey Decimal classification system. Expanded information on automation, nonprint media, and Library of Congress classification is provided. Appendices explain how computers process bibliographic information.

Richard Linneman:

Are you kind of hectic person, only have 10 or perhaps 15 minute in your morning to upgrading your mind ability or thinking skill even analytical thinking? Then you have problem with the book compared to can satisfy your short space of time to read it because this all time you only find e-book that need more time to be go through. Introduction to Cataloging and Classification can be your answer given it can be read by you actually who have those short spare time problems.

Daniel Carter:

Do you like reading a publication? Confuse to looking for your chosen book? Or your book had been rare? Why so many problem for the book? But just about any people feel that they enjoy intended for reading. Some people likes reading through, not only science book but novel and Introduction to Cataloging and Classification as well as others sources were given expertise for you. After you know how the good a book, you feel would like to read more and more. Science book was created for teacher as well as students especially. Those books are helping them to put their knowledge. In some other case, beside science publication, any other book likes Introduction to Cataloging and Classification to make your spare time considerably more colorful. Many types of book like this.

Blanche Ball:

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that looking at is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Introduction to Cataloging and Classification can make you experience more interested to read.
