## **Silos and Silage (Classic Reprint)** William Newton

Excerpt from Silos and Silage

Of all the crops suitable for putting into silos, corn is undoubtedly the best. Clover, alfalfa, vetch, peas, fall rye, fall wheat, and most of the spring-sown grains have been successfully made into silage both singly and in combinations. Under certain conditions it is profitable to use these crops, but corn will be the staple silo crop under most conditions.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
