**Auto Brakes, A5 (G-W Training Series for ASE Certification)** Chris Johanson, Martin T. Stockel

Auto Brakes presents design, operation, diagnosis, and service information to prepare students for on-the-job success. Brake system operation is fully explained before troubleshooting, service, and repair are discussed. Chapters on anti-lock brakes and traction control describe the operation, inspection, troubleshooting, and repair of these important systems. Scan tool use and trouble code retrieval for diagnosis is also covered. This text is a valuable resource for anyone who needs a thorough understanding of today's brake systems, including those preparing for ASE Certification Test A5, Brakes.

- Content is correlated to the Brakes section of the NATEF Task List.
- Information on hydraulic system fundamentals and friction brake theory is included.
- The use of brake tools and service equipment, including brake lathes and pressure and vacuum bleeding equipment, is detailed.
- Optional digital platform including premium online text, shop manual, workbook, videos, animations, instructional content, and course management tools is available.
