Hands-On Hypercard: Designing Your Own Applications

Mimi Jones, Dave Myers

Hands-On Hypercard: Designing Your Own Applications Mimi Jones, Dave Myers
An easy-to-use, hands-on guide to Macintosh's HyperCard program, including many time-saving tips and tricks not found in the support documentation. Covers the basics before going on to more advanced topics, providing many helpful, real-life examples along the way. Written by two HyperCard experts, one of whom (Jones) wrote the training material for Apple employees and Apple Dealers. They show you how to program the Macintosh easily, and they explore HyperCard's wide range of applications. Incorporates the latest HyperCard update (version 1.2). Disk available from the authors, with the book's stackware (and more!) on it.

From reader reviews:

Carolyn Baird:

Do you one among people who can't read satisfying if the sentence chained within the straightway, hold on guys this particular aren't like that. This Hands-On Hypercard: Designing Your Own Applications book is readable simply by you who hate those straight word style. You will find the facts here are arrange for enjoyable examining experience without leaving even decrease the knowledge that want to offer to you. The writer associated with Hands-On Hypercard: Designing Your Own Applications content conveys thinking easily to understand by a lot of people. The printed and e-book are not different in the written content but it just different in the form of it. So , do you still thinking Hands-On Hypercard: Designing Your Own Applications is not loveable to be your top collection reading book?

Adela Valenti:

Information is provisions for anyone to get better life, information presently can get by anyone from everywhere. The information can be a understanding or any news even an issue. What people must be consider any time those information which is in the former life are hard to be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you have the unstable resource then you get it as your main information you will see huge disadvantage for you. All those possibilities will not happen with you if you take Hands-On Hypercard: Designing Your Own Applications as the daily resource information.

Annetta Doucette:

Playing with family in a park, coming to see the sea world or hanging out with friends is thing that usually you may have done when you have spare time, in that case why you don't try point that really opposite from that. One particular activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Hands-On Hypercard: Designing Your Own Applications, you could enjoy both. It is very good combination right, you still would like to miss it? What kind of hangout type is it? Oh occur its mind hangout people. What? Still don't have it, oh come on its called reading friends.

Thomas White:

This Hands-On Hypercard: Designing Your Own Applications is great reserve for you because the content that is certainly full of information for you who also always deal with world and get to make decision every minute. That book reveal it details accurately using great coordinate word or we can say no rambling sentences included. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but tricky core information with wonderful delivering sentences. Having Hands-On Hypercard: Designing Your Own Applications in your hand like keeping the world in your arm, facts in it is not ridiculous a single. We can say that no guide that offer you world with ten or fifteen minute

right but this e-book already do that. So , this can be good reading book. Hey Mr. and Mrs. active do you still doubt that?
