## Severe Dementia

The later stages of dementia are as important, if not more so, as the earlier stages, since they harbour unique characteristics and events, which profoundly affect the lives of patients and their carers. Severe dementia has not had a high profile in the clinical literature as until recently prognosis was poor and there were few beneficial interventions. With the recent licensing of memantine, clinicians finally have a drug option that will delay disease progression.

*Severe Dementia* is the first book to focus exclusively on severe dementia. It addresses both the clinical features of the disease and the social aspects of care. Introductory chapters on the differential diagnosis, neurochemistry and molecular pathology of severe dementia set the scene for the clinical discussion. Detailed clinical chapters on cognitive function, depression, physical effects, staging and function follow. All therapeutic interventions are then discussed, including memantine, anticholinesterases, neuroleptics and non-pharmacological treatment. The final chapters review the social and economic aspects of dementia care, including family involvement, person-centered care, palliative care, ethics and health economics.

Written and edited by experts in geriatric psychiatry and geriatrics, *Severe Dementia* is of value to all clinicians involved in the management of this complex and vulnerable group of patients. It is also of interest to general practitioners and carers in nursing homes.

### From reader reviews:

#### **Christy Brodersen:**

Book is to be different per grade. Book for children right up until adult are different content. As we know that book is very important usually. The book Severe Dementia ended up being making you to know about other knowledge and of course you can take more information. It is quite advantages for you. The e-book Severe Dementia is not only giving you much more new information but also for being your friend when you really feel bored. You can spend your spend time to read your e-book. Try to make relationship with all the book Severe Dementia. You never experience lose out for everything in the event you read some books.

#### **Jean Gadson:**

Why? Because this Severe Dementia is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will jolt you with the secret the idea inside. Reading this book alongside it was fantastic author who have write the book in such awesome way makes the content on the inside easier to understand, entertaining means but still convey the meaning entirely. So , it is good for you for not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of positive aspects than the other book have such as help improving your ability and your critical thinking means. So , still want to delay having that book? If I were being you I will go to the guide store hurriedly.

#### **Vivian O'Brien:**

Your reading sixth sense will not betray an individual, why because this Severe Dementia book written by well-known writer who knows well how to make book that may be understand by anyone who else read the book. Written inside good manner for you, still dripping wet every ideas and writing skill only for eliminate your own hunger then you still doubt Severe Dementia as good book not only by the cover but also by content. This is one guide that can break don't judge book by its protect, so do you still needing another sixth sense to pick this specific!?! Oh come on your reading sixth sense already told you so why you have to listening to a different sixth sense.

#### **Elisabeth McBee:**

Guide is one of source of information. We can add our expertise from it. Not only for students and also native or citizen want book to know the revise information of year in order to year. As we know those books have many advantages. Beside many of us add our knowledge, may also bring us to around the world. Through the book Severe Dementia we can have more advantage. Don't someone to be creative people? To be creative person must like to read a book. Only choose the best book that suited with your aim. Don't be doubt to change your life with that book Severe Dementia. You can more attractive than now.
