**South and Central Asia (Facts at Your Fingertips. the World of Endangered Animals)** Tim Harris (Or  
The nations of South and Central Asia are understood only within the diversity of their environments and habitats. Their societies are as diverse and complex as the chains that support their animal worlds. These first, second, and third world nations are alternately harming and trying to rebuilding nature. The fight for endangered species is a description of effort, citizenship, and technology. It is an ideal report-writing resource; featured animals are discussed by habitat, routines, and region and data panels give specifics about population, endangered status, habitat change and more. Critical readers will learn the categories of threat and how conservation organizations work to preserve endangered species.
