The more we learn about bees, the more extraordinary they seem. They have five eyes and beat their wings at almost 200 cycles per second. And to communicate with each other bees do make sounds but also dance. This book, packed with over 30 figures, gives a fascinating insight into the extraordinary complex and highly organised world of bees. The author, K. Weiss, explains the critical role that bees and bee-keeping play for human society, and offers advice for those interested in raising bees.
