## **The Sheldon Short Guide to Asthma** Mark Greener

Asthma affects 1.1 million children (1 in 11) and 4.3 million adults (1 in 12) in the UK - that's one in five households. Fortunately, effective modern drugs mean that deaths from asthma are less rare than they used to be, especially in view of the millions of people who suffer from the disease in the UK. Nevertheless, one person dies from asthma in the UK every seven hours - and most are adults. Adults also account for 58 per cent of hospital admissions for asthma. The UK still has some of the highest asthma rates in Europe, yet, asthma in adults rarely gets the attention it deserves. This book aims to redress the balance. Topics include: What is asthma? Types of asthma Common asthma triggers Occupational asthma Diagnosing asthma in adults Treating asthma in adults Coping with asthma: beyond drugs
