Just reading the word "subsidies" may cause many people's eyes to glaze over. We don't think it affects us directly, so we tune out. But it turns out that this complicated-sounding issue has an enormous impact on all of us. *The Big Handout* is about bad fiscal, environmental, agricultural, water, energy, health, and foreign policies. And it's a story about just one thing?subsidies.

A subsidy is a grant by the government to a private business that is deemed advantageous to the public. Cotton, wheat, corn, soy, and oil are the most subsidized commodities in the United States. In this eye-opening book, *New York Times* best-selling author Thomas Kostigen explores government policies that cost taxpayers \$200 billion per year, over \$1,500 per household. In some cases we pay more for subsidized goods than we'd pay in a free market?and, in the most shocking abuses of the subsidy system, we pay for goods that aren't even produced.

The Big Handout exposes how artificial pricing hurts us and people worldwide, from our waistlines and pocketbooks to our health. By revealing just how toxic America's subsidy system has become, for everyone, *The Big Handout* is a wake-up call that empowers readers to effect change.
