The Number System (Dover Books on Mathematics)

H. A. Thurston

The Number System (Dover Books on Mathematics) H. A. Thurston

The teaching of mathematics has undergone extensive changes in approach, with a shift in emphasis from rote memorization to acquiring an understanding of the logical foundations and methodology of problem solving. This book offers guidance in that direction, exploring arithmetic's underlying concepts and their logical development.

This volume's great merit lies in its wealth of explanatory material, designed to promote an informal and intuitive understanding of the rigorous logical approach to the number system. The first part explains and comments on axioms and definitions, making their subsequent treatment more coherent. The second part presents a detailed, systematic construction of the number systems of rational, real, and complex numbers. It covers whole numbers, hemigroups and groups, integers, ordered fields, the order relation for rationals, exponentiation, and real and complex numbers. Every step is justified by a reference to the appropriate theorem or lemma. Exercises following each chapter in Part II help readers test their progress and provide practice in using the relevant concepts.

From reader reviews:

Patricia Diaz:

What do you consider book? It is just for students because they are still students or this for all people in the world, the particular best subject for that? Just you can be answered for that problem above. Every person has various personality and hobby for every other. Don't to be pressured someone or something that they don't need do that. You must know how great along with important the book The Number System (Dover Books on Mathematics). All type of book would you see on many resources. You can look for the internet methods or other social media.

Natalie White:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their free time with their family, or their particular friends. Usually they doing activity like watching television, gonna beach, or picnic within the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could possibly be reading a book might be option to fill your no cost time/ holiday. The first thing you ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the e-book untitled The Number System (Dover Books on Mathematics) can be very good book to read. May be it is usually best activity to you.

Donna Cancel:

Publication is one of source of knowledge. We can add our knowledge from it. Not only for students and also native or citizen require book to know the up-date information of year for you to year. As we know those textbooks have many advantages. Beside many of us add our knowledge, can also bring us to around the world. By book The Number System (Dover Books on Mathematics) we can consider more advantage. Don't that you be creative people? To get creative person must love to read a book. Just choose the best book that acceptable with your aim. Don't become doubt to change your life with this book The Number System (Dover Books on Mathematics). You can more attractive than now.

Gerald Wright:

Some individuals said that they feel weary when they reading a publication. They are directly felt that when they get a half portions of the book. You can choose the particular book The Number System (Dover Books on Mathematics) to make your own personal reading is interesting. Your own personal skill of reading talent is developing when you like reading. Try to choose simple book to make you enjoy you just read it and mingle the idea about book and reading through especially. It is to be very first opinion for you to like to open a book and learn it. Beside that the guide The Number System (Dover Books on Mathematics) can to be your brand-new friend when you're truly feel alone and confuse in doing what must you're doing of these time.
