Using REDUCE in High Energy Physics

A. G. Grozin

Using REDUCE in High Energy Physics A. G. Grozin

This book describes the use of the symbolic manipulation language REDUCE in particle physics. There are several general purpose mathematics packages available to physicists, including Mathematica, Maple, and REDUCE. Each has advantages and disadvantages, but REDUCE has been found to be both powerful and convenient in solving a wide range of problems. This book introduces the reader to REDUCE and demonstrates its utility as a mathematical tool in physics. The first chapter of the book describes the REDUCE system, including some library packages. The following chapters show the use of REDUCE in examples from classical mechanics, hydrodynamics, general relativity and quantum mechanics. The rest of the book systematically presents the Standard Model of particle physics (QED, weak interactions, QCD). A large number of scattering and decay processes are calculated with REDUCE. All example programs from the book can be downloaded via Internet, from <http://www.inp.nsk.su/~grozin/book/>. The emphasis throughout is on learning through worked examples.

From reader reviews:

Cassandra Martin:

As people who live in the particular modest era should be up-date about what going on or info even knowledge to make these individuals keep up with the era that is certainly always change and move ahead. Some of you maybe will update themselves by looking at books. It is a good choice to suit your needs but the problems coming to you actually is you don't know which one you should start with. This Using REDUCE in High Energy Physics is our recommendation so you keep up with the world. Why, as this book serves what you want and wish in this era.

Patricia Kirby:

The book untitled Using REDUCE in High Energy Physics contain a lot of information on this. The writer explains your girlfriend idea with easy means. The language is very simple to implement all the people, so do not worry, you can easy to read the item. The book was compiled by famous author. The author will bring you in the new age of literary works. It is possible to read this book because you can read more your smart phone, or gadget, so you can read the book with anywhere and anytime. If you want to buy the e-book, you can open up their official web-site along with order it. Have a nice examine.

Arthur Ramires:

In this time globalization it is important to someone to obtain information. The information will make a professional understand the condition of the world. The healthiness of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, classifieds, book, and soon. You can observe that now, a lot of publisher in which print many kinds of book. Typically the book that recommended to your account is Using REDUCE in High Energy Physics this reserve consist a lot of the information of the condition of this world now. This kind of book was represented how does the world has grown up. The words styles that writer use to explain it is easy to understand. Typically the writer made some analysis when he makes this book. This is why this book suited all of you.

Karin Decker:

Reading a e-book make you to get more knowledge from that. You can take knowledge and information from the book. Book is created or printed or highlighted from each source that filled update of news. On this modern era like currently, many ways to get information are available for you. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just looking for the Using REDUCE in High Energy Physics when you needed it?
