Vegepatterns: A kaleidoscopic coloring book of perplexing patterns Nick Dolan

Vegepatterns is the symmetry-obsessed successor to one of the world's most bizarre coloring books, Vegebook. Weighing in at nearly 140 pages, Vegepatterns contains over 65 single-sided original vegenaut illustrations including snowflakes, tessellations, mandalas, quilts, and all sorts of other weird, undefinable alien things just waiting for your own chromatic interpretations. Nick Dolan's unique take on these classical schemes provides a coloring book that is unmatched in its level of immersion, attention to detail, and size. With the same unmistakable style, twice the designs, and at least 10 times the symmetry of Vegebook, Vegepatterns is a massive and very worthy follow-up to Vegenaut's previous chromatome.

- Over 65 single-sided illustrations
- Snowflakes, flower blooms, tessellations, quilts, and more!
- Strange psychedelic style not found anywhere else
- One of the most detailed and intricate offerings in the Vegebook line
