## Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science)

The LNCS journal Transactions on Large-Scale Data- and Knowledge-Centered Systems focuses on data management, knowledge discovery, and knowledge processing, which are core and hot topics in computer science. Since the 1990s, the Internet has become the main driving force behind application development in all domains. An increase in the demand for resource sharing across different sites connected through networks has led to an evolution of data- and knowledge-management systems from centralized systems to decentralized systems enabling large-scale distributed applications providing high scalability. Current decentralized systems still focus on data and knowledge as their main resource. Feasibility of these systems relies basically on P2P (peer-to-peer) techniques and the support of agent systems with scaling and decentralized control. Synergy between grids, P2P systems, and agent technologies is the key to data- and knowledge-centered systems in large-scale environments.

This, the 18th issue of Transactions on Large-Scale Data- and Knowledge-Centered Systems, contains extended and revised versions of seven papers presented at the 24th International Conference on Database and Expert Systems Applications, DEXA 2013, held in Prague, in the Czech Republic, in August 2013. Following the conference, and two further rounds of reviewing and selection, five extended papers and two invited keynote papers were chosen for inclusion in this special issue. The subject areas covered include argumentation, e-government, business processes, predictive traffic estimation, semantic model integration, top-k query processing, uncertainty handling, graph comparison, community detection, genetic programming, and web services.

### **From reader reviews:**

#### **Mary Barker:**

This Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) book is simply not ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book is information inside this publication incredible fresh, you will get details which is getting deeper you read a lot of information you will get. This Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) without we know teach the one who examining it become critical in thinking and analyzing. Don't become worry Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) can bring if you are and not make your carrier space or bookshelves' turn into full because you can have it in your lovely laptop even cellphone. This Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) having fine arrangement in word as well as layout, so you will not truly feel uninterested in reading.

#### **Sandy Reid:**

Information is provisions for people to get better life, information today can get by anyone in everywhere. The information can be a information or any news even a concern. What people must be consider any time those information which is within the former life are hard to be find than now's taking seriously which one works to believe or which one the actual resource are convinced. If you obtain the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) as the daily resource information.

#### **Maria Carlin:**

Do you have something that that suits you such as book? The publication lovers usually prefer to select book like comic, quick story and the biggest the first is novel. Now, why not trying Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) that give your entertainment preference will be satisfied simply by reading this book. Reading behavior all over the world can be said as the opportunity for people to know world much better then how they react in the direction of the world. It can't be stated constantly that reading routine only for the geeky individual but for all of you who wants to be success person. So , for all you who want to start examining as your good habit, you are able to pick Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) become your starter.

**Ruth Vigue:**

Beside this particular Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) in your phone, it can give you a way to get more close to the new knowledge or information. The information and the knowledge you will got here is fresh from the oven so don't possibly be worry if you feel like an aged people live in narrow town. It is good thing to have Transactions on Large-Scale Data- and Knowledge-Centered Systems XVIII: Special Issue on Database- and Expert-Systems Applications (Lecture Notes in Computer Science) because this book offers for you readable information. Do you sometimes have book but you rarely get what it's about. Oh come on, that would not happen if you have this in your hand. The Enjoyable arrangement here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss the idea? Find this book and read it from today!
